A special election called pursuant to this section shall not be included in a statutory or charter limitation as to the number of special elections to be called within a period of time. A previous election held under this act is not invalid if the election was approved by majority of the total valid votes cast in a proper election. The hospital authority calling an election for a date other than a primary, general, or special election held within the cities, villages, or townships forming the hospital authority shall pay the costs of the election. If the election is held at the same time as a primary, general, or special election held within the cities, villages, or townships forming the hospital authority, the hospital authority shall pay its proportionate share of the costs incurred in holding the election.

Sec. 7. (1) Except as otherwise provided in section 6, by April 1 of each year, the hospital board shall cause a balanced budget to be prepared containing an itemized statement of the estimated current expenses

and the expenses for capital outlay, including the amount necessary to pay the principal and interest of any outstanding bonds or other obligations of the authority maturing before the time of the following year's tax collection or which have previously matured and are unpaid, and an estimate of the revenue of the hospital authority from all sources for the ensuing fiscal year. The share of each city, village, and township shall be determined on the basis of their respective valuations as finally equalized. The assessed valuation of a township for the purpose shall be exclusive of the property within a village which, as a corporate entity, is a member of the authority, and the assessed valuation of a member village shall be computed pursuant to the township assessment roll so as to afford a uniform assessment basis. A member township containing in whole or in part a member village shall levy taxes under this act only against property located outside the village. A village located in a township that is also a member of the authority, by agreement with the township, may have the township include the village property in a tax assessment under this act, collect the money assessed, and pay it to the village for payment of its share to the authority. Payment of the sums certified shall be due and payable to the hospital authority 120 days after the date on which local taxes become due and payable in cities, villages, and townships participating in the hospital authority except that when a township collects a village portion, the amount due from the village shall not be due to the authority until the township portion is due. Each city, township, and village shall be liable for the amount certified.

(3) The board shall also render to each participating city, township, and village on each July 1 and January 1 a certified report pertaining to the operation of the hospital. Each report shall state the condition of the finances, the amount of money expended, the money received from all sources, the money owing to the board for hospital and medical services, and other information as the board may consider expedient. The board shall also file a copy of the report with the department of treasury together with other information as the department of treasury may require.

(4) Within 30 days after the formation of a new hospital authority, and annually on July 1 thereafter, the hospital board shall file with the secretary of state a report as the secretary of state may require, including the date of formation, the names of the member communities, and other information the secretary of state may require.

Sec. 8b. 331.8c Bonds; authorization; ordinance; referendum petition and election; notice; resolution.

Sec. 8c. Unless a referendum petition is filed as provided in this act, a hospital authority board by ordinance adopted by the affirmative vote of a majority of its members may authorize and issue bonds and provide for such matters necessary or desirable with respect thereto and to insure the security of any bonds issued hereunder without submitting the question thereof to the electors of the authority. Bonds shall be authorized by the hospital authority board by resolution. If, within 60 days from the publication of a notice of intent to issue the bonds, a petition, signed by not less than 10% or 15,000 of the registered electors, whichever is less, residing within the member cities, villages and townships of the authority, shall have been filed with the secretary of the authority requesting a referendum election upon the question of the issuance of the bonds, then the same shall not be issued unless the issuance thereof shall have been approved by a majority of the electors of the authority member cities, villages and townships qualified to vote and voting thereon at a general or special election. The notice shall be directed to the electors and tax payers of the authority and of the member cities, villages and townships and other interested parties, and shall be published in a newspaper which has general circulation in the territory included in the authority, and which is determined by the hospital authority board to be the newspaper reaching the largest number of persons to

whom the notice is directed and shall state the maximum amount of bonds to be issued, the purpose thereof, source of payment and right of referendum thereon, and such other information as the hospital authority board shall determine to be necessary to adequately inform the electors and tax payers of the nature of the issue. If a referendum petition is filed with the secretary of the authority, the hospital authority board shall adopt a resolution establishing the date of the referendum election which shall be not less than 60 days after the adoption of such resolution. The secretary of the authority shall, within 5 days after the adoption of such resolution, transmit a certified copy thereof to the clerk of each city, village or township which is a member of the authority. The clerk of each member city, village or township shall forthwith take all steps necessary to provide for an election in accordance with the resolution so passed at which election the question of issuing the bonds shall be submitted. The election shall be conducted in the same manner as elections are required to be conducted in the member cities, villages or townships under the provisions of the general election law. Where any part or all of a village belonging to the authority is located in a township belonging to the authority, the township election shall include that part of the village located in it and the village shall not be required to hold such an election except in that portion of the village not located in the township belonging to the authority. The election in each member city, village and township shall be canvassed in the manner required by the general election law and the results thereof shall be certified to the hospital authority board within 5 days after the date of the election. The hospital authority board shall compile and tabulate the vote as received from the member cities, villages and townships and certify the election by resolution upon the records of the authority, and a majority of the total valid votes cast in the referendum election voting "yes" on the question submitted shall constitute an approval. Any special election called in accordance with this section shall not be included in any statutory or charter limitation as to the number of special elections to be called within any period of time. Signatures on any referendum petition shall be verified by some person or persons, under oath, as to actual signatures of the persons whose names are affixed thereto. Each referendum petition shall state the city, village or township in which it is circulated and be signed by registered electors from such member city, village or township, and any signatures on the petition from a different city, village or township shall be invalid. The secretary of the authority shall deliver the petitions to the clerks of the member cities, villages and townships who shall verify the same against their registration records and the secretary of the authority shall reject signatures of those persons signing the petition who are not registered electors of the member city, village or township of the authority. The number of registered electors in the member cities, villages and townships of the authority shall be determined by the cities', villages' and townships' registration books. A resolution adopted pursuant to this act shall become effective upon its adoption unless otherwise specified therein. The resolution shall be recorded in the minutes of the meeting of the hospital authority board as soon as practicable after its passage, which recording shall be authenticated by the signatures of the chairman and secretary of the hospital authority board. The resolution shall be published once in a newspaper of general circulation within the boundaries of the hospital authority. This section constitutes the sole requirements with respect to the adoption and publication of the resolution.

331.8d Bonds; contents of authorizing resolution; serial; installments; form; execution; payment of principal and interest; registration.

Sec. 8d. (1) The resolution authorizing the issuance of bonds shall state a brief description of the contemplated project, the estimated cost thereof, the estimated period of usefulness thereof, and the amount and maximum rate of interest and time of payment of the bonds. The bonds shall be serial bonds payable either semiannually or annually with the first installment not more than 5 years from the date thereof and the last installment not longer than the estimated period of usefulness of the project for which the bonds are issued. The bonds shall bear interest payable semiannually, except that the first coupon may be for any number of months not exceeding 10. Except as otherwise provided in this act an annual installment payable after 4 years from the date thereof may not be less than 1/5 the amount of a subsequent installment of the same series of bonds. The bonds and coupons shall be substantially in the form provided in the authorizing resolution and shall be executed in the manner prescribed in the resolution, which, as to coupons, may be by facsimile signature. The bonds and coupons shall be made payable in lawful money of the United States of America and shall be exempt from any and all taxation whatsoever by this state or by any taxing authority within the state.

(2) The principal of and interest upon the bonds shall be payable from the net revenues derived from the operation of the hospitals of the authority as shall be pledged thereto in the authorizing resolution, which revenue shall include net revenues derived by reason of hospitals subsequently acquired or improvements, enlargements, extensions, or repairs thereto, to be thereafter acquired. The principal and interest may be

payable from amounts which are assessed against a member city, township, or village as provided in this act. The bonds may be made registrable as to principal or as to principal and interest under such terms and conditions as may be determined by the hospital authority board in the resolution authorizing the bonds.

331.8e Bonds; creation of lien in authorizing resolution; nature and effect of lien; default; receiver.

Sec. 8e. (1) There shall be created in the authorizing resolution a lien, by this act made a statutory lien upon all net revenues, including as a part thereof, the assessments against a member city, township, or village as provided in this act pledged to the payment of the principal of and interest on the bonds, to and in favor of the holders of the bonds and the interest coupons pertaining thereto. This lien shall be a first lien upon the revenues and amounts pledged, except where a prior lien exists, then the new lien shall be subject thereto.

(2) The revenues and amounts so pledged shall be and remain subject to the statutory lien until the payment in full of the principal of and interest upon the bonds. The holder or holders of bonds representing in the aggregate not less than 20% of the entire issue then outstanding may by suit, action, or other proceeding protect and enforce the statutory lien and enforce and compel the performance of all duties of the officials of the hospital authority, including the fixing of sufficient rates, the collection of revenues, the proper segregation of revenues, the proper application thereof, and the imposition and collection of assessments against a member city, township, or village assessed in accordance with this act. However, the statutory lien shall not be construed to give the holders or owners of a bond or coupon authority to compel the sale of any of the hospitals the revenues of which are pledged.

(3) If a payment of principal or interest on the bonds is in default, a court having jurisdiction in any proper action may appoint a receiver to administer and operate on behalf of the hospital authority, under direction of the court, any hospital the revenues of which are pledged to the payment of principal and interest. With the approval of the court the receiver may fix and charge rates and collect revenues sufficient to provide for the payment of bonds or other obligations outstanding against the revenues of the hospital, and for the payment of operating and maintenance expenses, and to apply the income and revenues of the hospital in conformity with this act, the resolution providing for the issuance of the bonds, and in accordance with orders of the court.

Sec. 8f. Except as provided herein, bonds may not be sold except at public sale, after notice by publication at least 14 days before the sale in a publication printed in the English language and circulated in this state which carries as part of its regular service notices of sale of municipal bonds and which was approved by the department of treasury as a publication complying with the foregoing qualifications. If the hospital authority received a bid or bids at the time fixed for public sale which was rejected by the hospital authority board, then the bonds may be sold at private sale within 60 days thereafter at a price not less than the highest bid received at the public offering. If the hospital authority offered the bonds at a public offering and did not receive a bid, then the bonds may be sold at private sale within 60 days after that last public offering. During a period in which bonds may be sold at private sale the hospital authority board may enter into an agreement for delivery of the bonds in payment for the cost of the particular project for which the bonds are to be issued. Notwithstanding any of the foregoing provisions, bonds may be sold without a second public offering to the federal government or any agency thereof at private sale within 60 days after the first public offering at a price not less than the highest bid, if any, received at the first public offering.

331.8h Bonds; deposit or investment of sale proceeds; use of moneys received from sale; cancellation of bonds acquired by purchase; payment of capitalized interest.

Sec. 8h. (1) The hospital authority shall require the proceeds of the sale of bonds issued under this act to be

deposited in an account separate from other moneys of the hospital authority in 1 or more banks or savings and loan associations each having unimpaired capital and surplus amounting to at least \$2,000,000.00 or which is insured by the federal deposit insurance corporation or the federal savings and loan insurance corporation. (2) All moneys received from the sale of bonds shall be used solely for the purpose for which the bonds were authorized including any engineering, legal, and other expenses incidental thereto, and including the payment of interest on the bonds during a period not to exceed the first 3 years following the date of the bonds and the amount required for operation and maintenance prior to the receipt of the first revenues. An unexpended balance of the proceeds from the sale of the bonds remaining after completion of the project for which issued, may, to the extent of 15% of the amount of the issue, be used for the improvement or enlargement of hospitals of the hospital authority or may be used to defray the cost of additional hospitals of the hospital authority, if approved by the department of treasury. A remaining balance shall be paid immediately into the bond and interest redemption fund and used only for the redemption or purchase, at no more than the fair market value, of outstanding bonds the issue from which the proceeds were derived. Any bonds so acquired by purchase shall be canceled and shall not be reissued. A resolution authorizing bonds shall state the period for which interest is to be capitalized, and upon receipt of the proceeds of the bonds there shall be set aside therefrom in the bond and interest redemption fund the amount of interest which will accrue during such period at the interest rate or rates specified in the bonds. 331.8i Free service by hospital prohibited; rates for services.

Sec. 8i. Free service may not be furnished by a hospital, the revenues of which are pledged for the payment of bonds, to a person, firm, or corporation, public or private, or to a public agency or instrumentality. The reasonable cost and value of a service rendered to a public agency, including a member city, township, or village, shall be paid for as the service accrues from its current funds and the charges when so paid shall be accounted for in the same manner as other revenues of the hospitals. Rates for services furnished by a hospital, the revenues of which are pledged for the payment of bonds, shall be fixed precedent to the issuance of the bonds. The rates shall be sufficient to provide for the payment of the expenses of administration, operation, and maintenance of the hospital as may be necessary to preserve the same in good repair and working order. The rates shall be sufficient to provide for the payment of principal of and interest on the bonds payable from the revenues of the hospital, as, and when, the same become due and payable, taking into account, however, amounts assessed or to be assessed against a member city, township, or village as provided in this act, and for the creation of any reserve for the payment of principal and interest as required in the resolution. The rates shall be sufficient to provide for such other expenditures and funds for the hospital as the resolution may require. The rates shall be fixed and revised from time to time by the hospital authority board so as to produce these amounts, and the hospital authority board shall covenant and agree in the resolution authorizing the issuance of the bonds, and on the face of each bond, to maintain at all times such rates for services furnished by such hospitals as shall be sufficient to provide for the foregoing. Rates charged for the services furnished by a hospital, the revenues of which are pledged for the payment of bonds under this act, shall not be subject to approval by any state, bureau, board, commission, or other like instrumentality or agency thereof.

Sec. 8j. (1) A hospital authority issuing bonds pursuant to this act may provide in the authorizing resolution for issuance of additional bonds of equal standing: (a) For completion of the project for which the bonds were issued if the bonds first authorized are insufficient therefor; (b) for the subsequent enlargement, extension, improvement, or repair of existing hospitals; or (c) for acquiring, equipping, or furnishing of a new hospital or hospitals. The additional bonds may be issued and sold from time to time as the proceeds therefrom may be necessary. The bonds when so sold shall have equal standing with those issued in the first instance. The additional bonds may be issued in separate series from the original bonds with different dates of issuance and with such changes in the form thereof as are consistent with that equality of standing.

(2) This act providing for annual installments and the amount thereof and the due date of the first

installment shall not be controlling as to each such additional series, except that after 4 years from the date of the additional bonds, the total amount of bonds in the additional series and in the previously issued series of equal standing maturing in any 1 operating year shall not be less than 1/5 of the total amount of all the bonds maturing in any subsequent years. The additional bonds of equal standing may not be issued unless authorized as provided in this act.

(3) A provision in a resolution or ordinance heretofore adopted by any hospital authority board providing for the issuance of additional bonds is hereby ratified and confirmed, and any hospital authority board may issue additional bonds in accordance with that resolution or ordinance, which bonds shall be of equal standing with any bonds outstanding heretofore issued by that hospital authority.

331.8m Funds to which hospital revenues pledged in authorizing resolution.

Sec. 8m. In the authorizing resolution the hospital authority board shall pledge the revenues of the hospital or hospitals for the purpose of the following funds and shall provide that the revenues as collected, except amounts assessed by a hospital authority against a member city, township, or village, where the amounts are pledged for the payment of bonds, shall be set aside in a receiving fund and transferred or credited periodically as provided in the resolution into separate and special funds as follows:

(a) Out of the revenues in the receiving fund a sum sufficient shall be set aside to provide for the payment for the next succeeding period of all current expenses of administration, operation, and maintenance as may be necessary to preserve the hospitals, the revenues of which are pledged for the payment of bonds in good repair and working order. This fund shall be designated “operation and maintenance fund”.

(b) Out of the revenues remaining in the receiving fund a sum sufficient shall next be set aside to provide for the payment of the principal and interest on the bonds payable therefrom, as, and when the same become due and payable and the amounts assessed against a member city, township, or village, and where said amounts are pledged in accordance with this act for the payment of bonds and interest thereon, and to the extent that the amounts so assessed are set aside, the sum required to be set aside from the receiving fund may be reduced, if so provided in the resolution authorizing the bonds. This fund shall be designated “bond and interest redemption fund”.

If the revenues of an operating year over and above those necessary for the operation and maintenance fund are insufficient to pay the principal of and interest on the bonds maturing in the operating year, then an additional amount to pay the principal and interest shall be set aside out of the revenues of the next succeeding operating year, after the setting aside for the operation and maintenance fund. In respect to the allocation and use of moneys in the bond and interest redemption fund, due recognition shall be given as to priority rights, if any, between different issues or series of outstanding bonds. The hospital authority may provide by resolution that a reasonable excess amount shall be set aside in the bond and interest redemption fund to produce and provide a reserve to meet any possible future deficiencies therein.

(c) Out of the remaining revenues in the receiving fund there shall next be set aside, in the manner and priority provided in the resolution, the sum or sums necessary for such additional funds as the resolution may establish.

(d) Moneys remaining in the receiving fund at the end of an operating year shall be deemed to be surplus and may be transferred to other funds of the hospital authority or may be used as the hospital authority board determines to be for the best interest of the hospital authority, unless some other disposition is made therefor in the resolution authorizing the issuance of the bonds. If moneys in the receiving fund are insufficient to provide for the current requirements of the operation and maintenance fund or the bond and interest redemption fund, any moneys or securities in other funds established by the resolution authorizing the bonds shall be transferred first to the operation and maintenance fund and second to the bond and interest redemption fund to the extent of any deficits therein.

(a) The sale, lease, or other transfer shall be to a nonprofit corporation established pursuant to the nonprofit corporation act, Act No. 162 of the Public Acts of 1982, being sections 450.2101 to 450.3192 of the Michigan Compiled Laws, and organized specifically for the ownership and operation of the hospital. The nonprofit corporation shall meet both of the following requirements:

(i) At the time of the sale, lease, or other transfer or within 6 months after the date of the sale, lease, or other transfer, be an entity exempt from federal income tax under section 501(c) of the internal revenue code or a comparable successor provision.

(ii) At the time of the sale, lease, or other transfer, the majority of the members of the board of directors of the nonprofit corporation shall also be members of the board of the hospital authority.

(b) The articles of incorporation of the nonprofit corporation and the contractual arrangements between the

hospital authority and the nonprofit corporation shall at all times require that the nonprofit corporation operate the hospital as a nonprofit community hospital open to the general public that serves the general population residing in the service area of the hospital authority.

(c) The articles of incorporation of the nonprofit corporation and the contractual arrangements between the hospital authority and the nonprofit corporation shall at all times require that the nonprofit corporation shall not sell, lease, or otherwise transfer the hospital without the express consent of the hospital authority and the approval by a majority of the voters as required in this subsection for the sale, lease, or other transfer of a hospital from the hospital board to a nonprofit corporation. If the hospital is sold, leased, or otherwise transferred pursuant to this subdivision, the sale, lease, or other transfer shall be for market value and the proceeds of the transaction shall be turned over to the hospital authority.

(d) If the hospital authority has ever levied an additional tax for capital improvements under section 4, then the hospital authority shall pay back to each member unit of the hospital authority, upon such terms and conditions as may be agreed upon by the hospital board and each member unit, an amount equal to all taxes for capital improvement collected within the 60 months immediately preceding the sale, lease, or other transfer with respect to property located in the member unit, and any remaining uncollected portion of the tax levy shall not then be collected.

(e) The articles of incorporation of the nonprofit corporation and the contractual arrangements between the hospital authority and the nonprofit corporation shall at all times require that the nonprofit corporation adopt and carry out policies designed to ensure both of the following:

(i) That hospital care is provided to a reasonable degree to indigent persons in the corporation's hospital service area free of charge.

(ii) That the hospital complies with the requirement of section 20201(2)(a) of the public health code, Act No. 368 of the Public Acts of 1978, being section 333.20201 of the Michigan Compiled Laws, that patients not be denied appropriate care on the basis of source of payment.

(3) As used in subsection (2), "hospital" includes all property, real and personal, tangible and intangible, including without limitation cash and accounts receivable, used in the operation and management of the hospital.

(4) If self-liquidating bonds have been issued by the hospital authority pursuant to this act, and if the bonds are outstanding, a lease of a hospital as provided for in subsection (2), with or without a transfer to the nonprofit corporation at the expiration of the lease term and with or without monetary consideration, is not a violation of this act or of any bond resolution or ordinance adopted pursuant to this act if the lease does all of the following:

(a) Requires the lessee to pay rent to the hospital authority in an amount sufficient to pay the principal and interest obligations of the bonds as they become due.

(b) Requires the lessee to maintain the various bond funds as required by this act and by the bond resolution or ordinance.

(c) Provides for the continuation of the lien created by this act and by the bond resolution or ordinance upon the net revenues of the hospital.

(d) Requires the lessee to operate the hospital in a manner consistent with the bond resolution or ordinance.

(5) If self-liquidating bonds have been issued by the hospital authority pursuant to this act, and if the bonds are outstanding, a sale of a hospital as provided for in subsection (2) is not a violation of this act or of any bond resolution or ordinance adopted pursuant to this act if all of the following conditions are met:

(a) The outstanding bonds are defeased.

(b) Defeasance of the existing bonded indebtedness is accomplished by depositing sufficient cash or United States treasury obligations, or both, in escrow in an amount sufficient, including interest to be earned on the funds and obligations placed in escrow, to provide for payment of all interest, principal, and premium, if any, when and as due on the outstanding bonds, including final payment. As used in this subdivision, "final payment" means the final payment due at the maturity of the bonds or upon the redemption of the bonds prior to maturity on a date on which the bonds are callable for redemption if irrevocable arrangements have been made to call the bonds for redemption on that date.

(c) The contract of sale contains provisions implementing this subsection.

(6) Subject to subsection (9), if a hospital authority passes a resolution providing for an election pursuant to subsection (2), the legislative body of a city, village, or township participating in the hospital authority may, within 90 days after the date the resolution is passed by the hospital authority, pass a resolution to withdraw from membership in the authority. If the resolution to withdraw as a member of the authority is passed by the legislative body, the election provided for in subsection (2) shall not be held unless a majority of the hospital authority board concurs in the withdrawal of that member unit. If the board concurs in the withdrawal, the withdrawal shall be effective on the date of the sale, lease, or other transfer of the hospital

after the election provided for in subsection (2). After the effective date of the withdrawal, the withdrawing member unit is not subject to any tax levy or other request for funds made by the hospital authority under this act or otherwise, and is not entitled to any of the assets of the hospital authority.

(7) Subject to subsection (9) and except as otherwise provided in this subsection, if a hospital authority passes a resolution providing for an election pursuant to subsection (2), the legislative body of a city, village, or township participating in the hospital authority may, within 90 days after the date the resolution is passed by the hospital authority, provide by resolution for a public vote of the electors of the city, village, or township on the question of the withdrawal of that unit from membership in the hospital authority. The election shall be held at the same time as the at large election held under subsection (2) and conducted in the same manner as provided in section 4 for the approval of an additional tax for capital improvements. If an election is called by a member unit under this subsection, its vote shall be a separate vote for that unit on the question of withdrawal from the hospital authority. However, an election under this subsection or under subsection (2) shall not be conducted unless the hospital board has by majority vote consented to the withdrawal of the member unit that has resolved to hold an election on the question of withdrawal from the authority under this subsection. If the board concurs in the withdrawal, the withdrawal is effective on the date of the sale, lease, or other transfer of the hospital after the election provided for in subsection (2). After the effective date of the withdrawal, the withdrawing member unit is not subject to any tax levy or other request for funds made by the hospital authority under this act or otherwise, and is not entitled to any of the assets of the hospital authority.

(8) Subject to subsection (9) and except as otherwise provided in this subsection, if a hospital authority passes a resolution providing for an election pursuant to subsection (2), the electors of a city, village, or township participating in the hospital authority may, by petition signed by a number of qualified and registered electors residing within the city, village, or township equal to not less than 5% of the number of votes cast by the qualified and registered electors in that city, village, or township for secretary of state at the last general election in which a secretary of state was elected, require a public vote of the electors in that city, village, or township on the question of the withdrawal of that unit from membership in the hospital authority. The petitions shall be submitted to the clerk of the city, village, or township within 90 days after the passage of the resolution by the hospital authority providing for an election pursuant to subsection (2). If a sufficient number of signatures are submitted, the clerk of the city, village, or township shall take the steps necessary to provide for an election. The election shall be held at the same time as the at large election held under subsection (2) and conducted in the same manner as provided in section 4 for the approval of an additional tax for capital improvements. If an election is required in a member unit under this subsection, its vote is a separate vote for that unit on the question of withdrawal from the hospital authority. However, an election under this subsection or under subsection (2) shall not be conducted unless by a majority vote the hospital board has consented to the withdrawal of the member unit. If the board concurs in the withdrawal, the withdrawal is effective on the date of the sale, lease, or other transfer of the hospital after the election provided for in subsection (2). After the effective date of the withdrawal, the withdrawing member unit is not subject to any tax levy or other request for funds made by the hospital authority under this act or otherwise, and is not entitled to any of the assets of the hospital authority.

(9) If, at the election held pursuant to subsection (2), a majority of the electors at large do not vote to approve the sale, lease, or other transfer of the hospital to a nonprofit corporation, a resolution passed under subsection (6) or an election held under subsection (7) or (8) to withdraw a city, village, or township from participation in the hospital authority is void.

(10) An election held under subsection (8) takes precedence over a resolution passed under subsection (6).

(11) For a lease or other transfer of a hospital pursuant to subsection (2), the total bonded indebtedness of the hospital after the lease or transfer shall not be increased so as to exceed 60% of the total asset value of the hospital without a majority vote of the members serving on the hospital authority board. As used in this subsection and subsection (12), "total asset value" means the total value of the various assets of the hospital, including assets to be constructed or acquired by means of the additional proposed bonded indebtedness, as shown on an audited financial statement that includes all bonded indebtedness of the hospital.

(12) For a lease or other transfer of a hospital pursuant to subsection (2), the total bonded indebtedness of the hospital after the lease or transfer shall not be increased so as to exceed 80% of the total asset value of the hospital unless authorized at a general or special election and approved by a majority vote of the total qualified and registered electors voting on the question in each city, village, and township participating in the hospital authority. The election shall be conducted in the same manner as provided in section 4 for the approval of an additional tax for capital improvements.

(13) Upon the sale, lease, or other transfer of a hospital under this section, the nonprofit corporation or subsequent profit entity shall assume and is bound by any existing labor agreement applicable to the hospital,

for the remainder of the term of the agreement. A representative of the employees or a group of employees who is entitled to represent the employees or group of employees under Act No. 336 of the Public Acts of 1947, being sections 423.201 to 423.216 of the Michigan Compiled Laws, shall continue to be the representative of the employees or group of employees if the employees become employees of the nonprofit corporation or subsequent profit entity. This subsection does not limit the rights of the hospital employees, under applicable law, to assert that a bargaining representative protected by this subsection is no longer the representative of the employees.

(14) A hospital authority whose jurisdiction has a member population of more than 300,000 may, by resolution adopted by a majority vote of the hospital board, provide for the sale, lease, or other transfer of a hospital owned by the hospital board on any terms and conditions considered reasonable by the hospital board, including sale, lease, or other transfer for no or nominal monetary consideration, subject to all of the following terms and conditions:

(a) The sale, lease, or other transfer is to a nonprofit corporation established pursuant to the nonprofit corporation act, Act No. 162 of the Public Acts of 1982, being sections 450.2101 to 450.3192 of the Michigan Compiled Laws, and organized specifically for the ownership and operation of the hospital. The nonprofit corporation shall at the time of the sale, lease, or other transfer or within 6 months after the date of the sale, lease, or other transfer, be an entity exempt from federal income tax under section 501(c) of the internal revenue code or a comparable successor provision.

(b) The articles of incorporation of the nonprofit corporation and the contractual arrangements between the hospital authority and the nonprofit corporation shall at all times require that the nonprofit corporation operate the hospital as a nonprofit community health facility open to the general public that serves the general population residing in the service area of the hospital authority.

(c) The articles of incorporation of the nonprofit corporation and the contractual arrangements between the hospital authority and the nonprofit corporation shall at all times require that the nonprofit corporation shall not sell all of the transferred assets without the express consent of the hospital authority and the approval by a majority of the voters in an election conducted in the same manner as provided in section 4 for the approval of an additional tax for capital improvements. If all of the transferred assets are sold pursuant to this subdivision, the sale shall be for market value and the proceeds of the transaction shall be turned over to the hospital authority and used for health care needs within the service area of the hospital authority.

(d) The articles of incorporation of the nonprofit corporation and the contractual arrangements between the hospital authority and the nonprofit corporation shall at all times require that the nonprofit corporation adopt and carry out policies designed to ensure that the hospital complies with the requirement of section 20201(2)(a) of the public health code, Act No. 368 of the Public Acts of 1978, being section 333.20201 of the Michigan Compiled Laws, that patients not be denied appropriate care on the basis of source of payment.

(15) As used in subsection (14), "hospital" includes all property, real and personal, tangible and intangible, including without limitation cash, accounts receivable, and pension reserves used in the operation and management of 1 or more hospitals.

(16) If self-liquidating bonds have been issued by the hospital authority pursuant to this act, and if the bonds are outstanding, a sale, lease, or other transfer of a hospital as provided for in subsection (14) is not a violation of this act or of any bond resolution or ordinance adopted pursuant to this act if all of the following conditions are met:

(a) The outstanding bonds are defeased.

(b) Defeasance of the existing bonded indebtedness is accomplished by depositing sufficient cash or United States treasury obligations, or both, in escrow in an amount sufficient, including interest to be earned on the funds and obligations placed in escrow, to provide for payment of all interest, principal, and premium, if any, when and as due on the outstanding bonds, including final payment. As used in this subdivision, "final payment" means the final payment due at the maturity of the bonds or upon the redemption of the bonds prior to maturity on a date on which the bonds are callable for redemption if irrevocable arrangements have been made to call the bonds for redemption on that date.

(17) If a hospital authority passes a resolution providing for the sale, lease, or other transfer of a hospital as provided in subsection (14), the legislative body of a city, village, or township participating in the hospital authority may, within 60 days after the resolution is passed by the hospital authority, pass a resolution to withdraw from membership in the authority. If a legislative body of a member city, village, or township in the authority passes such a resolution, the resolution adopted by the hospital authority under subsection (14) is not effective until a majority of the hospital authority board concurs in the withdrawal of that city, village, or township. However, if the sale, lease, or other transfer of the hospital is not carried out, the resolution to withdraw and the hospital authority's resolution of concurrence in the withdrawal are void.

(18) Upon the sale, lease, or other transfer of a hospital under subsection (14), the nonprofit corporation

shall assume and is bound by any existing labor agreement applicable to the hospital, for the remainder of the term of the agreement. A representative of the employees or a group of employees under Act No. 336 of the Public Acts of 1947, being sections 423.201 to 423.216 of the Michigan Compiled Laws, shall continue to be the representative of the employees or group of employees when the employees become employees of the nonprofit corporation or subsequent profit entity. This subsection does not limit the rights of the hospital employees, under applicable law, to assert that a bargaining representative protected by this subsection is no longer the representative of the employees.

(19) A hospital authority whose jurisdiction has a member population of fewer than 5,000 may by resolution adopted by a majority vote of the hospital board provide for the sale, lease, or other transfer of real property owned by the hospital board to the county in which the member units of the hospital authority are located on any terms and conditions considered reasonable by the hospital board, including sale, lease, or other transfer for no or nominal monetary consideration.

331.42 Powers of state authority.

Sec. 12. The state authority has the powers necessary to carry out and effectuate the purposes of this act, including, but not limited to, all of the following:

The loans made by the authority may be secured or unsecured, as the authority determines.

(d) To loan money to hospitals for the purpose of refinancing any outstanding indebtedness of a hospital if the state authority determines the refinancing is necessary to realize the objectives and purposes of this act. MEDICAL CENTER COMMISSION

Act 154 of 1949

AN ACT to authorize any city or incorporated village, having a population of over 500,000 according to the latest or each succeeding federal decennial census, to establish a medical center commission and prescribe its duties, to acquire and dispose of real property in a medical center district, to prescribe the methods of finance and exercise of these powers, and to declare the effect of this act.

The People of the State of Michigan enact:

331.601 Medical center commission; declaration of necessity.

Sec. 1. It is hereby found and declared that inadequate and insufficient facilities exist, both governmental and non-governmental, for research into the causes of physical and mental disease, for the training of students in medicine, psychiatry, dentistry, and nursing; that the lack of these facilities makes it difficult, if not impossible, to secure enough competent personnel for these professions; that the centralization of the resources of a number of institutions, governmental and non-governmental, into a medical center district would create better conditions for research and training; that in order to secure a centralization of facilities a medical center commission is necessary to interest the needed institutions in such an arrangement and to acquire the land needed for a medical center district; that in order to select the most favorable location it is necessary for cities and villages to exercise their power of eminent domain to acquire land for the use of both governmental and non-governmental medical institutions; that, since medical institutions find it difficult to finance the acquisition of land or the construction of buildings, a medical center commission is necessary as a centralized method of obtaining funds from whatever sources may be available; and the necessity in the public interest for provisions herein enacted is hereby declared as a matter of legislative determination to be a public purpose and a public use.

Except as provided in sections 203 and 204, and except in counties having a population of 100,000 or more as determined by the most recent published federal decennial census, the question of establishing a corporation shall be presented to the county electors at a special or regular county election prior to incorporation. The election proceedings under this section shall be conducted in accordance with the Michigan election law, Act No. 116 of the Public Acts of 1954, being sections 168.1 to 168.992 of the Michigan Compiled Laws.

Sec. 202. An election required under section 201 shall be held at the usual places in the county for the election of county officers, the vote to be canvassed in the same manner as that for county officers. History: 1987, Act 230, Eff. Feb. 27, 1988.

331.1203 Corporation as successor to county public hospital.

Sec. 203. (1) Upon the expiration of 90 days after the effective date of this act, a county public hospital organized and existing under Act No. 350 of the Public Acts of 1913, being sections 331.151 to 331.169 of the Michigan Compiled Laws, or Act No. 109 of the Public Acts of 1945, being sections 331.201 to 331.213 of the Michigan Compiled Laws, on the effective date of this act shall be considered to be a corporation incorporated and existing under this act without the adoption or filing of articles of incorporation, without a vote of county electors, and without diminishing the terms of office of persons serving as trustees on the effective date of this act. A county public hospital shall not be considered to be a corporation incorporated and existing under this act upon the expiration of the 90-day period if, within the 90-day period, the county board of commissioners of the county in which the county public hospital is located passes a resolution prohibiting incorporation of the county public hospital under this act. Any such resolution shall be effective for not longer than 12 months after the date of passage. Before the expiration of the 12-month period, and annually thereafter, the county board of commissioners may pass a succeeding resolution prohibiting the incorporation of the county public hospital under this act. If the county board of commissioners fails to pass a succeeding resolution before the expiration of a 12-month period, the county public hospital automatically shall be incorporated under this act. The county board of commissioners of the county may at any time after the effective date of this act adopt articles of incorporation for the corporation in accordance with section 206. Until such time as any such articles of incorporation are effective, the provisions of this act shall be considered to constitute the articles of incorporation of the corporation. Unless and until articles of

incorporation providing different numbers of trustees or terms of office are effective, corporations governed by Act No. 350 of the Public Acts of 1913 on the effective date of this act shall have a board of 9 trustees serving 6-year terms, and corporations governed by Act No. 109 of the Public Acts of 1945 on the effective date of this act shall have a board of 5 trustees serving 3-year terms.

(2) Unless a resolution prohibiting incorporation of the county public hospital under this act has been passed and is in effect as provided in subsection (1), any county public hospital which has continuously operated for not less than the 15 years immediately preceding the effective date of this act and which has functioned or purported to function under Act No. 350 of the Public Acts of 1913, but which is unable to document compliance with sections 1, 2, and 3 of Act No. 350 of the Public Acts of 1913, being sections 331.151, 331.152, and 331.153 of the Michigan Compiled Laws, or any county public hospital which has continuously operated for not less than the 15 years immediately preceding the effective date of this act and which has functioned or purported to function under Act No. 109 of the Public Acts of 1945, but which is unable to document compliance with section 2 of Act No. 109 of the Public Acts of 1945, being section 331.202 of the Michigan Compiled Laws, shall be considered to be a corporation described in subsection (1). All actions taken by its board of hospital trustees in good faith prior to the effective date of this act shall be validated, ratified, and confirmed, provided the county public hospital files a notice of its intention to utilize this subsection with the county board of commissioners and the county clerk within 90 days after the effective date of this act. If necessary, the board of trustees shall be reconstituted in accordance with section 209(2), but without diminishing the terms of office of persons serving as trustees on the effective date of this act.

(3) Upon the expiration of 90 days after the effective date of this act, unless a resolution prohibiting incorporation of the county public hospital under this act has been passed and is in effect as provided in subsection (1), each corporation described in subsection (1) or (2) shall be considered to be the successor to the county public hospital for the county, and the terms of office of trustees shall continue. The corporation shall have all of the rights, privileges, immunities, and franchises of its predecessor county public hospital, all personal property, all debts due on whatever account, and all choses in action. All interests and licenses of or belonging to the county public hospital shall be considered to be transferred to and vested in the corporation without further act or deed. Such interests and licenses shall not be considered to have undergone any change of ownership for the purpose of any law or regulation, nor shall the fiscal year of any county public hospital be considered to have ended solely because this act takes effect. The title to any real estate, or any interest in real estate, vested in any county or county public hospital, shall not revert or in any way be impaired because a corporation succeeds a county public hospital pursuant to this act.

(4) Upon the expiration of 90 days after the effective date of this act, unless a resolution prohibiting incorporation of the county public hospital under this act has been passed and is in effect as provided in subsection (1), each corporation described in subsection (1) or (2) shall be considered to be the owner of all money and other property then deposited in the treasury of the county to the credit of the hospital fund and shall be entitled to all interest and other earnings accruing on those funds on and after the effective date of this act. The corporation shall be the owner of all other personal property used exclusively by or for the county public hospital. The treasurer of any county having custody of money and other property belonging to a corporation pursuant to this subsection shall arrange for the prompt transfer of such money and other property to the custody of the corporation.

(5) Upon the expiration of 90 days after the effective date of this act, unless a resolution prohibiting incorporation of the county public hospital under this act has been passed and is in effect as provided in subsection (1), each corporation described in subsection (1) or (2) shall be the employer of all persons employed by the county public hospital and shall assume and be bound by any labor agreement in existence on the effective date of this act and applicable to the county public hospital, but shall not be subject to greater obligations with respect to the terms, conditions, or duration of employment than was the county public hospital immediately preceding the effective date of this act. A representative of the employees or a group of employees who is entitled to represent the employees or group of employees under Act No. 336 of the Public Acts of 1947, being sections 423.201 to 423.216 of the Michigan Compiled Laws, shall continue to be the representative of the employees or group of employees. This subsection does not limit the rights of the hospital employees, under applicable law, to assert that a bargaining representative protected by this subsection is no longer the representative of the employees.

(6) Upon the expiration of 90 days after the effective date of this act, unless a resolution prohibiting incorporation of the county public hospital under this act has been passed and is in effect as provided in subsection (1), each corporation described in subsection (1) or (2) shall be responsible and liable for all liabilities and obligations of the county public hospital it succeeds. A claim existing or an action or proceeding pending by or against a county public hospital may be prosecuted by the corporation succeeding it in the name of the county public hospital, or the corporation may be substituted. The rights of creditors and

any lien upon the property of a county or a county public hospital existing on the effective date of the act shall not be impaired.

The board of trustees of a corporation may incorporate 1 or more subsidiary corporations in order to implement or further the public purposes stated in section 102 through the exercise of all or some of the powers provided in this act. (d) Terms of office of trustees shall be staggered so that an approximately equal number of terms expire at the end of each year or each 2 years, except that terms may be fixed so that the shortest terms do not expire until the end of the second year following the incorporation of a corporation or a subsidiary corporation.

After the initial subsidiary board, when a trustee's term of office expires or if a trustee's office is otherwise vacant, the board of trustees of the parent corporation shall fill the vacancy with the advice and consent of the county board of commissioners. 331.1502 Indemnification of certain persons.

Sec. 502. (1) A corporation or subsidiary corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending, or completed action, suit, or proceeding, whether civil, criminal, administrative, or investigative, against expenses, including attorneys' fees, judgments, fines, and amounts paid in settlement and actually and reasonably incurred by the person in connection with such action, suit, or proceeding, if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation or subsidiary corporation and the public, and, with respect to any criminal action or proceeding, had no reasonable cause to believe that conduct was unlawful by reason of the fact the person acted in any of the following capacities:

(a) Is or was a trustee, officer, or employee of the corporation or the subsidiary corporation.

(b) Served as a member of a committee of the medical staff or as a member or officer of a department or other administrative unit of a health care facility of a corporation or subsidiary corporation charged with responsibility for reviewing the professional qualifications of applicants for employment, medical staff membership, or clinical privileges, for establishing, administering, or reviewing the professional standards applicable to health services provided by the corporation or subsidiary corporation or provided by others in its health care facilities or for reviewing utilization of health services.

(c) Executed any note, bond, or corporation obligation on behalf of the corporation or subsidiary corporation.

(d) Served at the request of the corporation as a trustee, director, officer, employee, or agent of another public or private corporation, partnership, joint venture, trust, or other enterprise. The termination of any action, suit, or proceeding by judgment, order, settlement conviction, or upon a plea of nolo contendere or its equivalent, shall not of itself create a presumption that the person did not act in good faith and in a manner which the person reasonably believed to be in or not opposed to the best interests of the corporation and the public and, with respect to any criminal action or proceeding, had reasonable cause to believe that the conduct was unlawful.

(2) Notwithstanding the provisions of subsection (1), no indemnification shall be made with respect to any

claim, issue, or matter arising from any threatened, pending, or completed action by the corporation or subsidiary corporation as to which such person shall have been adjudged to be liable for negligence or misconduct in the performance of a duty to the corporation or subsidiary corporation unless, and only to the extent that, the court in which such action or suit was brought determines upon application that, despite the adjudication of liability but in view of all circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses as such court shall deem proper.

(3) A corporation or subsidiary corporation may, pursuant to bylaw, contract, agreement, or resolution of its board of trustees or subsidiary board obligate itself in advance to indemnify persons in accordance with subsections (1) and (2), may establish procedures for approval of indemnification in specific instances in accordance with subsections (1) and (2), and may pay expenses incurred in defending a civil or criminal action, suit, or proceeding described in subsection (1) in advance of the final disposition of such action, suit, or proceeding upon receipt of an undertaking on behalf of a person who may be entitled to indemnification to repay such amount unless it is ultimately determined that the person is entitled to be indemnified by the corporation or subsidiary corporation in accordance with subsections (1) and (2).

(4) A corporation or a subsidiary corporation may purchase and maintain insurance on behalf of any person described in subsection (1) against any liability asserted against the person and incurred by the person in any capacity or arising out of the status of the person described in subsection (1), whether or not the corporation would have the power to indemnify the person against such liability under this section.

(5) The powers conferred by this section, and the rights to indemnification which may be created pursuant to this section shall be in addition to all powers and rights with respect to indemnification otherwise provided by law.

Unless a later date is specified in the resolution, such dissolution shall be effective upon filing with the secretary of state. Upon dissolution, all property of the corporation, real and personal, shall immediately vest in the local governmental unit, without further act or deed, and the local governmental unit shall be liable for all undischarged debts and liabilities of the corporation.
